

## REMINGTON MAY BE VICTIM OF FOUL PLAY

Developments in the Newport Tragedy.

## SUICIDE THEORY EXPLODED

Fiance of Miss Van Alen May Have Been Murdered—Autopsy Reveals New Phase of the Case.

WILLIAMSPORT, Pa., Nov. 18.—New and sensational developments are reported to have come to light surrounding the tragic death of Robert Remington, fiance of Miss May Van Alen, which occurred in the reading room of Newport's exclusive Casino, last summer. Mr. Remington, it is remembered, was found shot to death in the sacred confines of the lounge room, used by Newport's elite social set.

Statements were at once scattered broadcast that Mr. Remington died as the result of a pistol wound, inflicted by his own hand. The suicide theory was generally accepted, and the incident apparently closed.

Mr. Edward P. Remington, brother of the deceased, however, was not reconciled to the theoretical deductions of suicide and instituted a searching investigation. As the result of an autopsy held over the body, here, experts declare Mr. Remington could not have inflicted the fatal wound, and that he was the victim of foul play.

It is further avowed that the finger of suspicion points to several well-known society persons in the East.

J. J. Van Alen, father of the dead man's fiance, remains silent, and will not discuss the case.

NEW YORK, Nov. 18.—While the physicians at Williamsport, Pa., who conducted the autopsy on the body of Robert Remington now say that he did not commit suicide at Newport after the breaking of his engagement with Miss May Van Alen, the medical examiner of Newport is just as positive that the wounds could not have been other than self-inflicted.

Chief of Police Benjamin Richards, of Newport, is in the city today. He is positive that Remington was a suicide.

He said: "It is foolish to say that the man did not kill himself. Not only did the two medical examiners of the police department find no suspicious circumstances, but the motive for the suicide was apparent. Dr. Henry Eckrodt, the State medical examiner, reported to me that the cuts on Remington's forehead were caused by the fall after he fired. They were assuredly not knife cuts."

"From letters which Remington sent to Miss Van Alen before the snooting it is apparent that he was in a bad way for days. When Remington's brother was in Newport after the suicide he seemed satisfied with his treatment, and said he was."

Mr. Remington denies that he authorized the statement about the murder theory purported to have come from him.

## KNIGHTS OF COLUMBUS' NEW HOME DEDICATED

The Knights of Columbus last evening formally dedicated their new headquarters on E Street near the corner of Sixth Street northwest, the building for years known as the E Street Baptist Church. The building was handsomely decorated and was crowded to its capacity. The formal blessing of the new home was invoked by the chaplain of the order, the Rev. Father O'Connell. The structure has been entirely reconstructed.

## CAPT. WALLACE'S TRIAL ENDED.

The court-martial appointed by the commander-in-chief of the Spanish War Veterans to consider the case of Capt. S. B. Wallace, charged with insubordination in disobeying the command of his superior officer and withdrawing the Charles Young command from the line of the Naval Veterans' parade, October 7, concluded the taking of testimony last evening. A decision probably will be reached in the matter tomorrow evening, but the finding will be given to the public until it receives the approval of the commander-in-chief, Col. M. Emmet Urell.

## FOOD TO USE

When Doctor Is Not Convenient.

Many people dislike to call in a doctor until it is absolutely necessary, frequently a change of food will work wonders.

A young lady in Russellville, Ky., says: "I was taken ill six weeks ago, and could not take solid food, was only allowed to eat soup and milk. In about a week, I got so weak and nervous that I could not sleep. Father wanted to call in a doctor, but I objected, as I didn't feel I needed medicine as much as good food. The next day father had to go to town, and brought back a package of Grape-Nuts with him, and I commenced to eat it twice a day in milk. I would get hungry for it from one time to the next. In a few nights I could sleep soundly all night, and in two weeks I was up, and had actually gained flesh, and was soon as strong as before I got sick."

"I would not be without Grape-Nuts now for anything, and my friends comment on my looks. I tell them I owe it to Grape-Nuts, and recommend it to all who complain with stomach trouble, which is the general complaint in this neighborhood." Name given by Postum Co., Battle Creek, Mich.

## LOTTERY CASE PROMISES TO BE A CAUSE CELEBRE

Francis vs. United States Test of Constitutionality of Regulating Interstate Commerce.

The case of Francis vs. the United States has been set for argument in the United States Supreme Court for the third time and promises to become a cause celebre. It involves a construction of the constitutional clause giving Congress the right to regulate interstate commerce.

Francis was convicted in Cincinnati of carrying lottery tickets over the bridge across the Ohio into Kentucky. The case was brought to the United States Supreme Court on a constitutional question. It has been argued twice by Judge Miller Outcalt and Attorney Thomas Shay, of Cincinnati. It is understood that the court on the last hearing divided on a vote of five to four and that the death of Justice Gray left the court evenly divided.

The case has been set for reargument

December 8, when Justice Holmes will have been sworn in and will take his seat for the first time. The fate of Francis depends upon the opinion of the new judge.

The Cincinnati case is coupled with one from Chicago, Champion vs. Ames, which will be argued by ex-Senator George F. Edmunds and William D. Guthrie. In this case the lottery tickets were sent by express from Texas to California.

The right of the Government to interfere in traffic of this character is at stake. In his law classes Justice Harlan has referred to the case as one of prime importance, the decision in which will have a great bearing on the future policy of the courts and Congress.

## TO MODIFY CHINESE EXCLUSION FROM HAWAII

Senator Burton of Kansas Says Labor Is Badly Needed in Sugar Brakes There.

CHICAGO, Nov. 18.—Senator Burton, of Kansas, who is in Chicago, last night indicated that the Senate subcommittee which was sent to Hawaii would report in favor of allowing a limited number of Chinese immigrants to enter the island.

"Instead of enjoying a season of prosperity there are regions in Hawaii where business is at a standstill," said Senator Burton. "This is partly due to the scarcity of labor. Especially is this true in the cane fields. The price of sugar is so low that it is impossible to secure native labor. They will not enter the brakes and work for the wages that are offered. So far but two classes, the Chinese and the Japanese, have been found who are willing to work for the wages offered."

## ATTEMPTED SUICIDE BY CHLOROFORM ROUTE

Martin, of Martinsburg, Swallowed a Dime's Worth of Narcotic, Tells Landlady, and Is Saved.

WINCHESTER, Va., Nov. 18.—Considerable excitement was created at the Baldwin House, this city, yesterday by the attempted suicide of a young slater, M. Snyder Martin, of Martinsburg, W. Va.

Martin purchased a 10-cent vial of chloroform from a local druggist and going to his room at the Baldwin House swallowed the contents of the bottle. When the narcotic began to take effect, Martin told the landlady what he had done.

A physician was at once summoned and worked with the man for several hours until all danger was past. Domestic troubles are said to be the cause of the attempted suicide.

## THE ASIATIC MAILS.

Most Difficult Subject of the Foreign Mails Office.

American Asiatic.

Perhaps the most difficult section of the duties of the foreign mails office of the United States Postoffice Department is that of Asiatic mails, says the "American Asiatic." Recently there have been some changes in the methods of the department, and particularly toward quicker dispatch. Among these changes is the assignment to the Seattle office of the making up of inward and outward mails for all sailings and arrivals of mail steamships at the ports of Seattle, Tacoma, and Vancouver, and Victoria in connection with all territory north of Canton, in East Asia. This includes all the vessels of the Great Northern or Nippon Yusen Kaisha Company, the Northern Pacific Steamship Company, and the Royal Mail Steamship Company, sailing to and from Japan and China. The territory involves China and coast points south, Japan, Siberia, and Korea.

The duties of the foreign department of the Seattle postoffice are particularly responsible in the proper assignment of mails to the East Asiatic distributing points. And in the absence of Asiatic detailed geographic intelligence by the general public, and also due to the general ignorance of the postoffice "geography," prompt dispatch is often impossible. Mail often reaches this point from interior United States offices, being wrongly directed by the addresser, which has to be redirected via New York.

This is particularly the case with mail for British India, the Dutch East Indies and other important trading points not within the trans-Pacific mail jurisdiction. Mails are made up at Seattle for Japan, whence Korean and Siberian mail is distributed. Shanghai, Hongkong and Chinese ports dependent on Hongkong distribution. Mail is also on Hongkong distribution. Mail is also taken for the Philippines when directed by this route, but at international rates, all Philippine islands mail being usually routed at domestic rates via San Francisco on account of United States transportation mail service thence. San Francisco distributes mail for trans-Pacific sailings and arrivals at that port. New York sends mail by the Eastern or Suez route to India, Siam and Dutch East Indies. This mail goes direct to London for transfer to British mail steamships.

## DEMENTED MAN FOUND WANDERING IN WOODS

Startling Discovery Made by George W. Mooney, Near Elkton, While Out Gunning.

ELKTON, Md., Nov. 18.—Yesterday morning, while George W. Mooney, near Elkton, was gunning, he found an unknown man in the woods, covered with leaves. The man was well dressed, but from his conversation appears to be demented. Sheriff McAllister brought him to Elkton last evening. His name, according to papers found on his person, is Everett L. Cole, of 29 Clinton Street, Worcester, Mass. The man is about sixty years of age and his dress shows him to be a man of respectability. Numerous articles were found in his pockets, including a gold watch, a bunch of keys, several letters addressed to persons in Massachusetts, a check book on the First National Bank of Worcester, and signed "E. L. Cole, trustee." Cole says he has been traveling and has been in the woods near Elkton since yesterday morning, that he has had nothing to eat since a week ago, but he refused to eat and says he will eat nothing until Wednesday.

Mr. Madden points out a number of abuses, among the most flagrant of which are the sample copy privileges and the offering of premiums to subscribers.

## WABASH ROAD MAKES A NEW CONNECTION

To Enter Pittsburg, Giving It Through Lines.

PITTSBURG, Nov. 18.—It is known positively now that the Wabash Railroad intends to cross the Allegheny River, and to connect with the Buffalo, Rochester, and Pittsburgh.

At different times rumors regarding the matter have been circulated, and in a general way it was known to be the desire to connect with the Iselin Road, provided the agreement with the old Pittsburg and Western Road would permit it.

It is the intention of the Goulds to cross the Allegheny River a few yards up stream from Fourth Street. The building of the little link of only a few hundred feet for track, between Ferry Street and the north shore of the Allegheny River, will open up a through line from the West to the East, passing directly through Pittsburg via the Wabash, Buffalo, Rochester, and Pittsburgh, Beech Creek, Philadelphia, and Reading and Central Railroad of New Jersey.

The line from Allegheny has been in operation on through freight for some months.

Successors to M. W. Beveridge,

1215 F Street and 1214 G Street.

Love is unequally yoked with sickness. Labor is lightened by love, but love cannot lighten pain or relieve it. Many a man looks on at his wife's suffering willing to do anything to aid her and able to do nothing.

Sometimes, however, the husband's attention is directed to Dr. Pierce's Favorite Prescription and its remarkable cures of womanly diseases. He may not have much hope of a cure, but he is led to try the medicine, with the result that in almost every case there is a perfect and permanent cure.

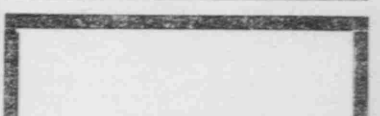

Dr. Pierce's Favorite Prescription cures irregularity. It dries the drains which weaken women, heals inflammation and ulceration, and cures female weakness.

As a tonic for women who are nervous, sleepless, worn-out and run-down "Favorite Prescription" is unequalled.

"In answer to your letter I will say, my wife commenced to complain twenty years ago," writes Lewis A. Miller, ex-Chief-of-Police, of 33 Prospect St., Weisport, Pa. "We have tried the skill of twelve different doctors. She took gallons of medicine during the time she was ill, until I wrote you and you told us what to do. She has taken eight bottles of Dr. Pierce's Favorite Prescription and six of 'The Golden Medical Discovery.' She can do her own work now and can walk around again and is quite smart."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Dr. Pierce's Pleasant Pellets invigorate stomach, liver and bowels.
